EATING GREENS WILL KEEP YOU YOUNG, HE SAYS

Baltimore Professor Tells People to Take a Quart of Milk a Day, Also.

THERE are many persons who, through improper diet, are as old looking at forty years as they would be at sixty-five on a proper diet, asserts Dr. E. V. McCollum, Professor of Biochemistry, Johns Hopkins University School of Hygiene and Public Health.

Dr. McCollum says a satisfactory diet cannot be made out of cereals, peas and beans, potatoes, fleshy roots and muscle meats, of which Americans are so fond.

"Our national dietetic sin," he said, "is living too much on wheat flour, on bread made from it, and other cereals having similar dietetic properties; on rubbers, such as the potato, and on meats."

"We should take at least a quart of milk per day, or its equivalent, and we should reduce our meat consumption to approximately 5 per cent. of the energy value of the diet. Substitute milk for half the quantity of meat now used and cultivate the habit of using green salad dishes."

NEWARK WORKERS WIN WAGE VICTORY

Arbitrator Decides Against Cut of \$1 a Day for Bricklayers, Masons and Plasterers.

Bricklayers, masons and plasterers in Newark and vicinity won a victory to-day in the arbitration of their dispute with the contractors. Last Monday the General Contractors' Association served notice that a reduction in wages would become effective in all lines on May 1. The men refused to accept and claimed they were locked out. The contractors claimed the men were on strike and all buildings remained at a standstill. Pending arbitration most of the men returned to work.

The bricklayers, masons and plasterers were to have been cut from \$13 to \$12 a day. Frank Sumner, Dean of the New York Law School, appointed arbitrator, to-day in his decision gives the men the old rate of \$13 a day. If the trade in New York drops the scale the men in Newark are to be guided by the reduction. The new agreement will be in effect until Dec. 31. A decision is expected shortly in the hoisting engineers' scale.

ILLNESS OF ACCUSED HALTS MAIL THEFT CASE.

Goldsmith Seriously Ill from a Nervous Breakdown.

The hearing of Arthur N. Goldsmith, head of the President Institute, a commercial school at No. 232 East 69th Street, scheduled for to-day before United States Commissioner Hitchcock, was adjourned without date when it was explained that Goldsmith is seriously ill from a nervous breakdown.

Goldsmith is named in an indictment returned in Chicago against John W. Worthington, alleging mail thefts and of using the mails to defraud. He is described as the New York agent to dispose of the alleged bond loot.

Goldsmith's secretary, Miss Caroline Hess, was yesterday identified in the office of Assistant United States Attorney Matlack by a post office clerk of Station Y as the woman who on July 27 cashed the coupon of a \$5,000 Liberty bond stolen from the Dearborn street post office section in Chicago. She was held in \$1,500 bail. She denied all charges against her.

SHE ACCUSES MAN AFTER HER ARREST

Girl of 16 Locked Up on Forgery Charge Says She Was Attacked.

Taken into custody last night on a charge of forging a check, Katherine Shannon, sixteen years old, of No. 312 West 47th Street, accused the arrest of George Byrne, thirty-six years old, a painter of the same address. She said Byrne enticed her to his room last Saturday and attacked her.

She was arrested on complaint of John Lawrence, a broker, of Harlem, N. Y., who said she forged his name to a check for \$51 but was unable to cash it.

He had hired her as a servant a week ago Monday and discharged her Saturday.

In West Side Court to-day the girl admitted stealing the blank check and committing the forgery. She was sent to the Children's Home in default of \$500 bail. Byrne was held in the same amount on her complaint. Both will have an examination on Thursday.
